I apologize. This gets complicated.

Hello,

Here is one call in factual support of my complaints of many I have contemplated sending you. This is the recording of the communication with internal security who referred me to you prior to calling ombudsperson. I already, within it, expended time reporting twice. I may, if deemed effective, later send complaint with memorandum and other recordings relevant.

Yours truly,

Jacob (James E. Horton per case #: 341B4TN89)

What Um tryin' 2 tell u is how what I'm complaining about 2 u started Missy. Veterans Affairs is a department of your agency. What I needed to get was copies of personnel records the DOD is obligated to provide when I request them. You have to fill out a form DD something somethin somethin. This is to be able to get my stolen birth certificate recovered. Do u understand Missy?

understand Missy?

No! Why did he enter PO Box 1382 on my form to send? PO Box 1382 is not to be used to receive outstanding mail! (Anymore as of recent, when it was originated as an emergency mailbox for only such legitimate purposes. Now, it has become an impersonated PO Box, which is a federal offense, at the annex building for pickup up of notices from the agency only. They unnecessarily identify this as the PO Box, which really is at the post office central/main and is counterfeited duplicate at the annex (when all that is needed is to refer to the annex to pickup notices locally hand-delivered). Your agency causing complications Missy. I still did not get these rightful records. How am I supposed to get my birth certificate ever if you cause all these delays Missy? This record shows process initiated on 07212019. Okay I'm going to have to hangup now if your agency is going to behave like this!

But you said I can't use it for anything but your notices to pick up but that comes from the post office but anything else has to by law get opened for inspection? ARE YOU OKAY MISSY? And u only have subject-matter jurisdiction concerning welfare fraud. U r being retaliatorily malicious, overzealous, hypervigilant and overscrutinous this review period differentially beyond your agency delegation.
